"On the question of our finances no relief can come to this country until it is given by the Democratic party. The Democratic party will meet the demands of the country, even though it has to do it without the aid of the President.

That is true; he was elected as a Democrat, but the Democratic party, as a party, always has been, and is to-day, opposed to that policy, while the Republican party, as a party, is a unit in favor of it.

Ex-Deputy Marshala Have Had No

The Deputy United States marshals ly dismissed on the appointment of a new United States Marshal, have not seven months' back pay due them. This long delay is said to caused by the First Comptroller of the Treasury, who cannot decide whether they should be paid per diem whether the Federal courts sit or not.

It has been the custom in the past to pay the deputies in full, on the ground that a United States, Court is always in session. The appropriation for the pay of the deputies was signed several months ago by the President.
